## World heritage OKINO-SHIMA

**Documentary** 45min 1episode 2017

The sacred island of Okinoshima, situated between the Japanese archipelago and the Korean peninsula, has long attracted the devotion of the local population in the Munakata region, who possessed advanced nautical skills. Large-scale rituals utilizing an enormous quantity of precious votive offerings were conducted on the island to pray for safe ocean voyages from the 4th to the 9th centuries, a period of more than 500 years during which overseas exchange occurred frequently in East Asia.

Ritual sites bearing witness to the successive phases of ancient rituals that chronicle the formation of indigenous beliefs in Japan have survived to the present almost intact, because the island of Okinoshima, as an object of worship, has been protected by established taboos strictly limiting access to the island.
